#### Item 2.02. Results of Operations and Financial Condition.

Attached hereto as Exhibit 99.1 and incorporated by reference herein is financial information for MagnaChip Semiconductor LLC and its consolidated subsidiaries for the quarter ended December 31, 2005, as presented in a press release dated January 27, 2005.

#### Item 9.01. Financial Statements and Exhibits.

#### (c) Exhibits.

The following exhibit is furnished as part of this report:

#### Exhibit No. Description

99.1 Press release for MagnaChip Semiconductor LLC dated January 27, 2005, announcing the results for the fourth quarter ended December 31, 2005.

#### SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Dated: February 1, 2006

#### MagnaChip Semiconductor Reports Fourth Quarter Results

Seoul, South Korea, January 27, 2006 – MagnaChip Semiconductor today announced results for the fourth quarter ended December 31, 2005.

Net revenue for the three months ended December 31, 2005 was \$245.2 million, compared to \$243.6 million in the fourth quarter of 2004.

Gross margin was \$60.4 million or 24.6% of revenue for the quarter ended December 31, 2005, compared to \$39.1 million or 16.1% of revenue for the quarter ended December 31, 2004.

Operating expenses were \$88.5 million in the fourth quarter or 36.1% of net revenue compared to \$51.8 million or 21.3% of net revenue during the fourth quarter of 2004. The increase of \$36.7 million from the prior year quarter was primarily due to one time charges of \$27.5 million during the fourth quarter of 2005, which included tangible and intangible asset impairment and restructuring charges related to a divesture of our Application Processor business.

Operating loss was \$28.1 million during the quarter compared to an operating loss of \$12.7 million in the prior year quarter.

Net interest expense for the fourth quarter was \$14.4 million compared to \$16.8 million in the fourth quarter of 2004.

Net loss for the three months ended December 31, 2005 was \$22.9 million compared to a net loss of \$5.8 million in the prior year quarter.

Youm Huh, President and CEO of MagnaChip Semiconductor, commented, "We marked our first year anniversary as an independent company this quarter. This was an important year for us, in which we accomplished a great deal in a short period of time thanks to the efforts of all of our employees. In addition to strengthening our corporate structure with several key hires and implementing stronger internal controls, we have successfully established MagnaChip as a leading brand with customers worldwide. We are pleased with our accomplishments and achieved significant strategic milestones in establishing our company to succeed in our focused end markets:

- We completed two acquisitions this year that are both delivering strategic products to our customers today, improving our growth prospects in the future
- · Our Display Solutions business reached record unit volumes in support of the high growth in digital television
- Our Imaging Solutions business released new 3.2 mega pixel and 2 mega pixel products this quarter, putting us firmly back on our technology roadmap for this

business and positioning us to fulfill our customers 2006 requirements for camera technology for the mobile phone market, and

• MagnaChip's Semiconductor Manufacturing Services business has defined a specialty foundry strategy that is uniquely serving the needs for analog, mixed signal, high voltage, power and embedded memory wafer foundry services."

Robert Krakauer, EVP of Strategic Operations and CFO of MagnaChip Semiconductor, said, "Capital spending was \$23 million for the quarter, up from prior quarters, but lower than the year ago period and below our plan for the full year 2005. We continue to strategically manage the timing of investments to meet our operational needs. Our balance of cash and cash equivalents increased to \$86.6 million at the end of the fourth quarter. While our achievement of aggressive working capital improvement goals for the quarter was less than forecasted, we are pleased with the strong cash generation of our business."

Mr. Krakauer, continued, "We signed an agreement this quarter to sell our Applications Processor business to an entity formed by GreenChips Co. Ltd., a semiconductor solution provider, which completes the strategic repositioning and efforts to focus our business. By maintaining a 10% equity stake in the new entity, we will continue to benefit from future upside expected from the combination of GreenChips and MagnaChip's Application Processor businesses. We are also pleased that MagnaChip will continue to provide foundry services to the new entity. We now have our goals set on the future growth of our three core product groups and on continuing to create innovative solutions for customers in these markets."

#### Investor Conference Call / Webcast Details

MagnaChip will report full results for the fourth quarter 2005 on Friday, January 27, 2006 at 9:00 a.m. in New York (11:00 p.m., Friday, January 27 in South Korea). The conference call will be available at www.magnachip.com and by telephone at (201) 689-8470. A replay of the call will be available in two hours after the call through midnight on Friday, February 3, 2006 in New York (2:00 p.m. Saturday, February 4, 2006 in Seoul) at www.magnachip.com and by telephone at (201) 612-7415. The account number to access the replay is 3055 and the confirmation ID number is 189638, respectively.

#### About MagnaChip Semiconductor

MagnaChip Semiconductor is a leading designer, developer and manufacturer of mixed-signal and digital multimedia semiconductors addressing the convergence of consumer electronics and communications devices. We focus on CMOS image sensors and flat panel display drivers, which are complex, high performance, mixed signal semiconductors that capture images and enable and enhance the features and capabilities of both small and large flat panel displays. MagnaChip also provides wafer foundry services utilizing CMOS high voltage, embedded memory, analog and power process technologies for the manufacture of IC's for customer-owned designs. MagnaChip has world-class manufacturing capabilities and an extensive portfolio of approximately 12,500 registered and pending patents. As a result, MagnaChip is a valued partner in providing leading technology solutions to its customers worldwide. For more information, visit www.magnachip.com.

#### Forward-Looking Statements:

Certain statements in this press release including statements regarding expected future financial and industry growth are forward-looking statements that involve a number of risks and uncertainties that could cause actual results to differ materially. In some cases, you can identify forward-looking statements by such terms as "believes," "expects," "anticipates," "intends," "estimated," the negative of these terms, or other comparable terminology. Factors that could cause actual results to differ include general business and economic conditions and the state of the semiconductor industry; demand for end-use products by consumers and inventory levels of such products in the supply chain; changes in demand from significant customers; changes in customer order patterns; changes in product mix; capacity utilization; level of competition; pricing pressure and declines in average selling price; delays in new product introduction; continued success in technological innovations and delivery of products with the features customers demand; shortage in supply of materials or capacity requirements; availability of financing; exchange rate fluctuations; litigation and other risks as described in the Company's SEC filings, including its quarterly report on Form 10-Q for the period ended October 2, 2005.

Although we believe that the expectations reflected in the forward looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. You should not place undue reliance on these forward-looking statements.

#### MagnaChip Semiconductor

#### Reconciliation of US GAAP Gross Profit, Operating Income (Loss) and Net Income (Loss) to Non-US GAAP Gross Profit, Operating Income (Loss) and Net Income (Loss) (In thousands of US Dollars) (Unaudited)

#### Use of Non-US GAAP Financial Information

To supplement our condensed consolidated financial statements presented on a US GAAP basis, MagnaChip Semiconductor uses non-US GAAP measures of gross profit, operating income (loss) and net income (loss), that are US GAAP gross profit, operating income (loss) and net income (loss) adjusted to exclude certain costs, expenses or gains, referred to as special items. Non-US GAAP adjusted gross profit, operating income (loss) and net income (loss) measure give an indication of our baseline performance before other charges that are considered by management to be outside of our core operating results. In addition, our non-US GAAP adjusted measure of gross profit, operating income (loss) are among the primary indicators management uses as a basis for our planning and forecasting of future periods. The presentation of this additional information should not be considered in isolation or as a substitute for gross profit, operating income (loss) and net income (loss) prepared in accordance with generally accepted accounting principles in the United States of America.
